### FEEDING DIRECTIONS

Feed PRODUCERS Lite N' Easy Horse Pellet at a rate of 0.5 to 1% of bodyweight depending on desired body condition, size of the horse and its degree of activity. In order to reduce the risk of colic, some forage (pasture or hay) should be available at all times. Also, evenly space feeding times throughout the day, never feeding more than 8 lbs. of concentrate per meal.

During periods of hot weather (daily temperatures of 90 degrees or higher) and/or heavy sweating, mix 2 oz. of an electrolyte supplement into the horse's daily ration.

Manufactured by
