

Product Number – **0033010**

Formula Number – **304L**

# WIND & RAIN® ALL SEASON 4 MINERAL TUB COMPLETE

**Specie:** Beef

**Type of Feed:** Mineral

**Form of Feed:** Tub

## General Description:

Beef cattle minerals in a cooked molasses tub that is designed to correct the mineral deficiencies of the available forage in a highly palatable, weather-resistant form. This line of minerals is designed for cow/calf and seedstock operators that need a free-choice mineral supplement to assure that their cattle are getting the proper levels and ratios of all of the 14 essential minerals cattle need for health, growth, and reproduction. Wind and Rain® Mineral Tubs provide these benefits in cooked molasses formulas packaged in a non-returnable plastic tub. This gives the producer a mineral that is the ultimate in weather resistance, palatability and consistent consumption, all in its own mineral feeder.

PURINA®

## WIND & RAIN® ALL SEASON 4 MINERAL TUB COMPLETE

SUPPLEMENT FEED FOR CATTLE ON PASTURE

CAUTION: FEED AS DIRECTED

### INGREDIENTS

**Note: ingredients differ by manufacturing plant**

Molasses Products, Dicalcium Phosphate, Monocalcium Phosphate, Salt, Magnesium Oxide, Soybean Oil, Calcium Carbonate, Sodium Hydroxide, Sodium Selenite, Zinc Sulfate, Cobalt Carbonate, Ethylenediamine Dihydriodide, Basic Copper Chloride, Vitamin D3 Supplement, Roughage Products, Vitamin E Supplement, Vitamin A Supplement.

### FEEDING DIRECTIONS:

Feed one tub per 25-30 head of cattle and at least 2 tubs per pasture to ensure adequate intake by younger, timid animals.

Place the tubs within 100 feet of where animals congregate (loafing, grazing, feeding and watering areas)

Feed tubs continuously along with plentiful sources of forage and fresh, clean water.

Cattle will consume approximately 1/4 to 1/2 pound of this supplement per head daily.

If additional mineral and vitamin fortification is needed, provide a nutritionally balanced mineral/vitamin supplement containing salt.

### CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, performance loss or death.

Do not feed this supplement to sheep due to high levels of supplemental copper.

### Available Options:

Product No.	Package	Size	Feeding Rate
0033010	Cooked Tub	225# Plastic	1/4 to 1/2 lb./hd./day

<b>Product Features:</b>	<b>Product Benefits:</b>
Balanced Mineral Nutrition	Contains the proper balance and ratios of all 14 essential cattle minerals
Consistent Consumption	Research tested and field proven, Wind and Rain® minerals are formulated with high quality, coarse textured ingredients that help assure proper palatability, meaning cattle will consume what they need, when they need it
Weather Resistant	Wind and Rain® Mineral Tubs offer the ultimate in weather resistance  Packaged primarily in the 225 pound size, it is not affected by wind or rain
Trace Minerals	Provides optimum levels of trace minerals at a 4 ounce to 8 ounce consumption rate, supporting fertility, immune function, and overall health
Convenience and Safety	Wind and Rain® Mineral Tubs conveniently come in their own mineral feeder, a non-returnable plastic tub  Non-returnable tub means no risk from the spread of disease from one farm/ranch to another

**IMPORTANT:**

This product is to be fed only to the animal species as directed on this label. Follow these management practices:

1. Placement of tubs can influence grazing distribution in large pasture situations. Place tubs in areas of under-utilization in order to entice animals to specific locations within a pasture.
2. Do NOT provide starved animals free access to this supplement.
3. Consumption rate depends on location of the tubs with respect to loafing, grazing, feeding and/or watering areas. Also consider animal condition, forage quality and quantity, in addition to seasonal weather conditions.
4. If over-consumption occurs for more than two weeks despite tub repositioning, remove tubs and evaluate the overall feeding program.

**USAGE TIPS:**

**INTRODUCTORY PERIOD:**

During the first week of use, place the tubs within 100 feet of the loafing and/or watering areas. As animals become accustomed to the presence of the tubs, some repositioning may be necessary.

Move the tubs closer to increase consumption, further away to decrease consumption.

**KEY POINTS:**

- Addresses mineral deficiencies of the available forage in a highly palatable, weather-resistant form.
- Wind and Rain® Mineral Tubs have the flexibility to provide partial to complete supplementation of minerals and vitamins, based upon animal requirements.
- The producer receives a mineral tub that is the ultimate in weather resistance, palatability and consistent consumption, all in a free-choice mineral delivery system that reduces costs associated with labor and equipment.
