

### FEEDING INSTRUCTIONS

HENS HAVE THE ABILITY TO ADJUST THEIR INTAKE OF CALCIUM ACCORDING TO INDIVIDUAL REQUIREMENTS. TO PROVIDE BIRDS THE OPPORTUNITY OF BALANCING THEIR OWN CALCIUM NEEDS, MAX 100 POUNDS OF PULLEY FEED SHELLS TO EACH TON OF COMPLETE FEED. HIGHER LEVELS OF SHELLS MAY BE NEEDED DEPENDING UPON FEED POWERS. FEED, HIGHER LEVELS OF SHELLS ACCUMULATE IN THE FEED TROUGH. REDUCES THE LEVEL OF ADDED SHELLS. THIS PRACTICE, REFERRED TO AS, "IN-FEED FREE CHOICE FEEDING OF CALCIUM", HAS THE FOLLOWING ADVANTAGES:

1. ELIMINATES LABOR REQUIRED IN SUPPLYING FREE CHOICE SHELLS IN SEPARATE FEEDERS. YET THE HENS STILL HAVE THE OPPORTUNITY TO BALANCE THEIR CALCIUM NEEDS.
2. HENS ARE NOT FORCED TO EAT MORE CALCIUM THAN THEIR INDIVIDUAL REQUIREMENTS.
3. PULLEY SIZE SHELLS ARE NOT AS DUSTY OR UNPALATABLE AS FINELY GROUND FORMS OF CALCIUM.
4. REDUCES THE SEPARATION OF CALCIUM ASSOCIATED WITH THE HANDLING OF FEEDS USING FINELY GROUND HIGH DENSITY SOURCES OF CALCIUM.
5. MAINTAINS FREE-FLOW CHARACTERISTICS OF FEED AND HELPS TO PREVENT BRIDGING AND CAKING IN BULK AND AUTOMATIC FEEDING EQUIPMENT.

### GUARANTEED ANALYSIS

Expressed as Calcium (Ca) Min ..... 38.00%  
 Expressed as Calcium (Ca) Max ..... 39.80%  
 Calcium Carbonate (CaCO<sub>3</sub>) not less than ..... 97.00%  
 Expressed as Calcium Oxide (CaO) ..... 54.32%

### INGREDIENTS

CRUSHED SHELL CALCIUM CARBONATE  
 OYSTER SHELL AND CALCIUM, CLAM-COQUINA LIKE SHELL.

### COASTAL BRAND PULLEY SIZE

#### HEALTH HAZARDS

Product contains mechanical irritants to skins, eyes and respiratory tract. Prolonged inhalation of dust may cause delayed lung disease (silicosis and cancer). Crystalline silica inhaled in the form of quartz or cristobalite from occupational sources has been classified as carcinogenic to humans (Group I) by IARC.

#### RISQUES POUR LA SANTÉ

Ce produit contient des irritants mécaniques à la peau, aux yeux, et des voies respiratoires. Une inhalation prolongée de la poussière peut causer une maladie des poumons retardée (silicose et cancer). L'inhalation de cristaux de silice en forme de quartz ou cristobalite a été classée de source professionnelle comme carcinogène pour les humains (Groupe I) par l'ARC.

#### PRECAUTIONS

Avoid breathing dust. Avoid contact with skin. Wear protective clothing including gloves, goggles or safety glasses with side shields and NIOSH approved dust mask.

#### PRÉCAUTIONS

Eviter de respirer la poussière. Éviter le contact avec la peau. Porter les vêtements de protection y compris les gants, les lunettes protectrices, ou les lunettes de sécurité qui protègent de tous les côtés, et le masque contre-poussière approuvé par NIOSH.

#### FIRST AID

**EYES:** DO NOT RUB EYES. Wash eyes under slowly running water for 15 minutes or longer, holding eyes as held wide open and moved slowly in every direction.

#### PREMIERS SOINS

**YEUX:** Ne pas se frotter les yeux. Rincer les yeux avec le frais qui coule lentement quinze minutes du moins, garder les yeux grands ouverts et regarder dans toutes les directions. Assurer qu'aucune particule solide ne reste aux ridés des paupières. Si c'est en cas, continuer à rincer les yeux. Si l'irritation continue, consulter un(e) ophtalmologue.

**SKIN:** Remove from source of irritation. Remove contaminated clothing; if necessary, wash affected area thoroughly with soap and water. Wash contaminated clothing before reuse.

**PEAU:** Éviter le point de la source d'irritation. Enlever les vêtements contaminés, au cas où c'est nécessaire. Rincer soigneusement la peau contaminée avec du savon et de l'eau. Laver les vêtements contaminés avant de les porter.

**RESPIRATORY:** Remove to fresh air immediately. Do not permit exposed person to remain in dusty atmosphere without respiratory protection.

**RESPIRATOIRE:** Enlever tout de suite pour se faire frais. Ne pas permettre l'individu exposé à la poussière de rester dans l'atmosphère poussiéreuse sans protection respiratoire.
