# WIND & RAIN® STORM® ALL SEASON 7.5 COMPLET

Specie: Beef Type: Mineral Form of Feed: Granules

**General Description:** Mineral and vitamin supplement for beef cattle on pasture designed to correct mineral deficiencies of the available forage in a highly palatable, weather-resistant, granular form.

# PURINA® WIND & RAIN® STORM® ALL-SEASON 7.5 COMPLETE MINERAL FEED FOR BEEF CATTLE ON PASTURE

# **GUARANTEED ANALYSIS**

Calcium (Ca), (Min)	13.50 %
Calcium (Ca), (Max)	16.20 %
Phosphorus (P), (Min)	7.50 %
Salt (NaCl), (Min)	18.00 %
Salt (NaCl), (Max)	21.60 %
Magnesium (Mg), (Min)	1.00 %
Potassium (K), (Min)	1.00 %
Manganese (Mn), ppm (Min)	4800
Cobalt (Co), ppm (Min)	18
Copper (Cu), ppm (Min)	
lodine (I), ppm (Min)	60
Selenium (Se), ppm (Min)	27
Zinc (Zn), ppm (Min)	
Vitamin A, I.U./lb, (Min)	300000
Vitamin D, I.U./lb, (Min)	30000
Vitamin E, I.U./Ib, (Min)	

# **INGREDIENTS**

Note: ingredients differ by manufacturing plant

Calcium Carbonate, Salt, Dicalcium Phosphate, Monocalcium Phosphate, Processed Grain By-Products, Vegetable Oil, Plant Protein Products, Potassium Chloride, Manganese Sulfate, Magnesium Oxide, Zinc Sulfate, Sodium Selenite, Mineral Oil, Lignin Sulfonate, Molasses Products, Basic Copper Chloride, Colored with Iron Oxide, Vitamin E Supplement, Vitamin A Supplement, Natural Flavor, Artificial Flavor, Ethoxyquin (a Preservative), Vitamin D3 Supplement, Ethylenediamine Dihydroiodide, Cobalt Carbonate.

#### **DIRECTIONS:**

Feed this product free choice to cattle receiving rations composed largely of grass hay or to cattle grazing range or grass pastures.

Optimum intake is 4 ounces per head daily.

#### CAUTION:

Store in a dry, well-ventilated area protected from rodents and insects. Do no feed moldy or insectinfested feed to animals as it may cause illness, performance loss or death.

# Available Options:

Product No.	Package	Size Diameter	Feeding Rate
3010035-106	50 lb. Bag	Granules	4 ounces/head/day

Product Features:	Product Benefits:
	<ul> <li>Contains essential macro and trace minerals at proper levels and ratios to address mineral deficiencies inherent in forages to meet cattle nutritional requirements throughout the year</li> </ul>
Balanced Mineral and Vitamin Nutrition	<ul> <li>Provides vitamin supplementation as forages are deficient in vitamins</li> </ul>
	<ul> <li>Supplemental vitamins A, D, and E to support optimal health, fertility and growth</li> </ul>
Consistent Consumption	<ul> <li>Tested at the Purina Animal Nutrition Center to ensure mineral is consumed by cattle at target level critical to supply cattle with the daily nutrition of essential minerals and vitamins</li> </ul>
	<ul> <li>Our research team evaluates and tests mineral ingredients to assure they are consumed consistently from animal-to-animal and day-to-day</li> </ul>
	<ul> <li>Free choice mineral formulations that are refused by cattle can decrease performance, and those that are consumed at excessive levels could lead to increased out-of-pocket cost for the producer</li> </ul>
Weather Resistance with Exclusive STORM® Formulation	<ul> <li>Patented STORM<sup>®</sup> formula minerals are developed to resist the elements, not digestion.</li> </ul>
	<ul> <li>Unique manufacturing process prevents clumping/bricking and allows Wind and Rain<sup>®</sup> mineral to remain palatable even after it becomes wet</li> </ul>
Large Particle Size Ingredients	<ul> <li>Resistant to wind losses and rain damage to protect investment in mineral and help achieve performance and profitability goals</li> </ul>

# IMPORTANT:

Follow these management practices:

- 1. Cattle receiving phosphorus deficient diets may over-consume this product when it is first offered.
- 2. Place the mineral feeder near the water supply or in the animals' loafing area.
- 3. Put out fresh mineral at least once per week.
- 4. Feeding free choice salt is not required with this mineral.
- 5. Provide fresh, clean water near the feeding area.

# Purina Wind and Rain® Cattle Minerals Uniquely Formulated to Provide:

Bioavailability - easy to absorb

Palatability - cattle love the taste

**Predictability** – cattle consume correct levels and balance of minerals and vitamins

Weatherability – reduce waste and optimize consumption
