

FLY CONTROL HAS NEVER
BEEN EASIER.

JustiFLY[®]
Fly-A-Salt[™]

THE MOST CONVENIENT, INEXPENSIVE FLY CONTROL ON THE MARKET.

No cow work required

**SIMPLE
INEXPENSIVE
EFFECTIVE**

Cattle simply ingest the larvicide as they feed on the salt throughout fly season. It passes through the animal and starts to work on flies in the cattle manure.

SAFE for the
dung beetle

8-3

One bag of salt feeds
8 cows for 3 months

0

ZERO animal
handling stress

800

800 feedings
per bag of salt

No dust bags

No tags

No sprays

No pour-ons

✓ Approved for pasture & feedlot cattle.

✓ No withdrawal period.

✓ No milk disposal issues.

7-3

One salt block feeds
7 cows for 3 months

700

700 feedings
per salt block

Less than 6 cents
per head per day

WHY WE ARE #1

1st Company in the World

Champion Animal Health was the first company in the world to develop the feed-through Diflubenzuron-based fly control product.

300,000 Ranchers

More than 300,000 cattle ranchers have trusted in our fly control treatment and prevention through proven results.

55 Million Head

We have proudly treated more than 55 million head of cattle over the years with results of less than 30 horn flies per animal.

Dung Beetle

Justify does NOT affect the Dung Beetle (*Digitonthophagus gazella*).

Own Ingredient

We have the expertise to manufacture our own active ingredient Diflubenzuron with the highest quality standard and control.
