(Lactobacillus acidophilus, Lactobacillus casei, Bifidobacterium thermophilum, Enterococcus faecium) *Contains a source of live (viable) naturally occurring microorganisms.

Ingredients

Ground Corn, Wheat Middlings, Dehulled Soybean Meal, Ground Oats, Dehydrated Alfalfa Meal, Ground Soybean Hulls, Cane Molasses, Ground Flaxseed, Dried Plain Beet Pulp, Dicalcium Phosphate, Lignin Sulfonate, Calcium Carbonate, Soybean Oil, Salt, Ammonium Chloride, Choline Chloride, DL-Methionine, Dried Lactobacillus acidophilus Fermentation Product, Dried Lactobacillus casei Fermentation Product, Dried Bifidobacterium thermophilum Fermentation Product, Dried Enterococcus faecium Fermentation Product, Pyridoxine Hydrochloride, Zinc Amino Acid Complex, Manganese Amino Acid Complex, d-Alpha Tocopheryl Acetate (Vitamin E), Menadione Sodium Bisulfite Complex (Vitamin K), Calcium Pantothenate, Ferrous Sulfate, Copper Amino Acid Complex, Folic Acid, Preserved with Mixed Tocopherols, Cholecalciferol (Vitamin D3), Yucca schidigera Extract, Cobalt Glucoheptonate, Vitamin B12 Supplement, Ground Limestone, Vitamin A Acetate, Riboflavin-5-Phosphate, Nicotinic Acid, Citric Acid (a Preservative), Copper Sulfate, Selenium Yeast, Thiamine Mononitrate, L-Lysine, Citric Acid, Manganese Sulfate, Manganous Oxide, Zinc Oxide, Zinc Sulfate, Ethylenediamine Dihydroiodide, Biotin, Rosemary Extract, Basic Copper Chloride, Sodium Selenite.

Feeding Directions

- Feed mini pigs between 1 2% of their body weight daily. The feeding amounts are guidelines and should be adjusted based on the mini pig's body condition, activity level, other foods offered, environmental temperatures, and social structure. Feed twice per day.
- Grass, hay or produce may be beneficial for more mature mini pigs to help keep them feeling full but is not necessary in the diet and should not consist of more than 40% of the diet.
- Gestation and lactation: Transition to 50% Mazuri® Mini Pig Active Adult and 50% Mazuri® Mini Pig Youth. For higher energy requirements, as in the case of large litter size or multiple breedings, increase Youth to 60% of daily intake.
- Always provide plenty of fresh, clean water.
- Thoroughly wash feed and water bowls on a regular basis. It is always good
 practice to wash hands thoroughly after feeding and/or handling animals.
- This diet is not for human consumption.

| Recommended Feeding Guide | |
|---------------------------|---|
| Pig Weight | Daily Amount* |
| 20 – 30 lbs | ¾ – 1 ¾ cups (110 – 270 g) |
| 31 – 45 lbs | 1 – 2 ¾ cups (150 – 400 g) |
| 46 – 60 lbs | 1 ½ – 3 ½ cups (225 – 540 g) |
| 61 – 75 lbs | 2 – 4 ¼ cups (300 – 680 g) |
| 76 – 100 lb | 2 ¼ – 6 cups (340 – 900 g) |
| 126 – 150 lb | 3 ¾ – 9 cups (570 – 1300 g) |
| Over 150 lb | 4 ½ – 9 cups (675 – 1300 g) plus an extra ½ cup for each 10 lb of body weight over 150 lb |
| | *1 – 2% of body weight |

Storage Conditions

For best results, reseal the bag between uses or store contents of open paper sack in container with sealing lid. Store in a cool (75°F/24°C or colder), dry (approximately 50% RH) location free from rodents and insects. Do not offer moldy or insect-infested feed to animals as it may result in illness, performance loss or death. Freezing will not harm the diet and may extend freshness. Use within 1 year of bag manufacturing or "Best if Used By" date.
